01

Mechanical

HVAC system

Central chiller

Split type system

Automatic temperature & humidity control system

02

Electrical

Transformers, MV panels, Diesel generator sets & ATS

LV switchgears, MDBs', MCCs' & distribution boards

PLCs', RTUs' & control panels

MV, LV & control cables

Solar power system

Tele-communication & security systems

Cable tray & trucking

Earthing & lightning protection system

External & internal lighting system

Industrial electrical systems

03

Structural

Structural analysis & design

Steel structures fabrication & erection

Sheet metal fabrication & erection

Pipeline & piping works

04

Civil

Construction project management
Site development
Building construction
Road construction
Sewer & water

05

Fire Fighting

Fire alarm
Sprinkler
Hose reel
Foam fire fighting
Gas suppression
(FM200,Co2)

Brands & Vendors

Affordable Brands With Equivalent Quality

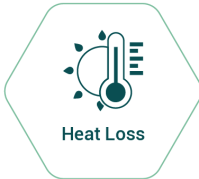

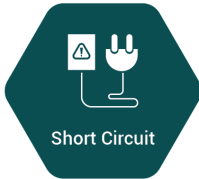

We offer methods of evaluating the entire engineering strategy based on market experience to find out whether there is a possibility of proposing a better brand name, a better price but still qualifying the same requirements.

Vendors With Good Services & Fast Delivery

With a physical inventory of the equipment & vendors on hand, we propose different options along with good after-sale guarantee and maintenance services, fast responding and close to the construction site to reduce the cost and time of delivery.

● MAINTENANCE

Among the detects cover by our maintenance services, the most common and critical ones are

Our Guarantee After Construction

In addition to our internal effort for quality and 0% defect commitment, we provide a guarantee of maintenance up to 2 years after completion of all our projects.

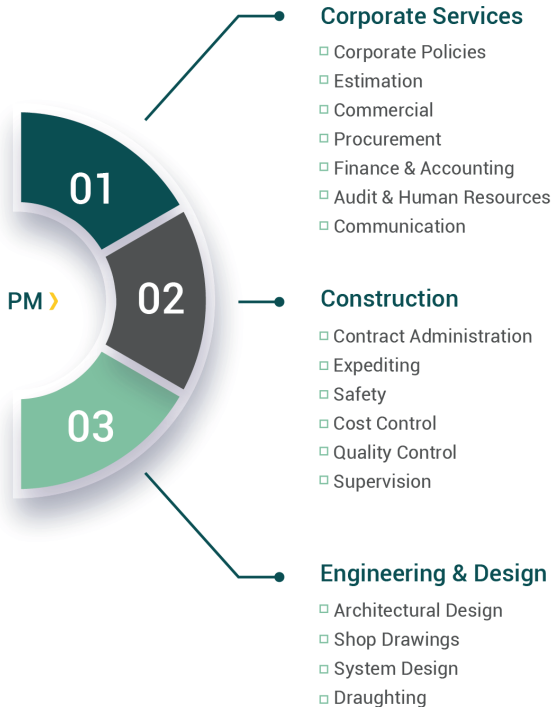

Our dedicated maintenance team excels on both preventive and reparative maintenance and keeps on continuous training on the evolution of technology.

Professional Maintenance Service

Hussein Est. For Contacting provide the professional maintenance service to help you inspect and evaluate your project to determine risks, maintenance plans, necessary remediations, etc.

The maintenance works are performed by a dedicated maintenance team specialized in various disciplines. With a long-term maintenance contract, we guarantee peace of mind to our clients and partners by keeping your project functional and liveable.

● BUSINESS OPERATION

Project Management >

01 Design

- Design and planning of projects/ plans
- Detailed design of mechanical and electrical component
- Civil guide layout and general arrangement drawing

02 Engineering

- Determination of all key component by :
- Technical specification
 - Interface definition and management
 - Supplier evaluation
 - Documentation

03 Procurement

- Mainly party manufacturing
- Manufacturing inspection
- Long-term relationship with keys
- Own process and product knowledge

04 Construction

- Lead engineering function construction
- Erection of electromechanical
- Control of key plant construction milestone
- Knowledge of local market and
- Reliable constructions partners
- Other constructions activities such as civil works

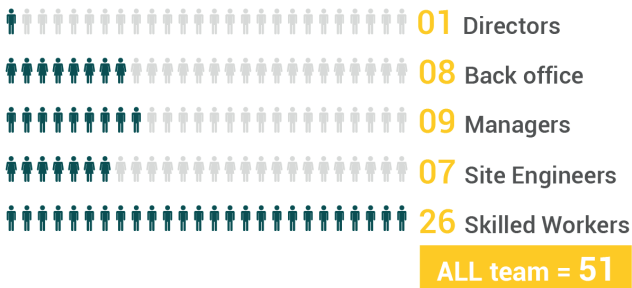

05 Commissioning

- Process knowledge and complex system interaction control
- Detailed knowledge of plant and keys technology use
- Start-up and test run

06 Operations & Maintenance

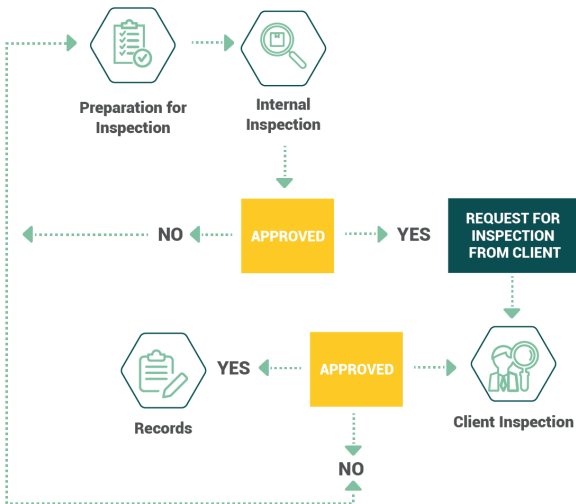

- Spare parts stocks and sevice management
- Short reaction time in case of plant malfunction
- Maintenance and schedules
- Plant optimization
- Operations
- Applies in IWP project ONLY varies from one contract to others

● ORGANIZATION CHART

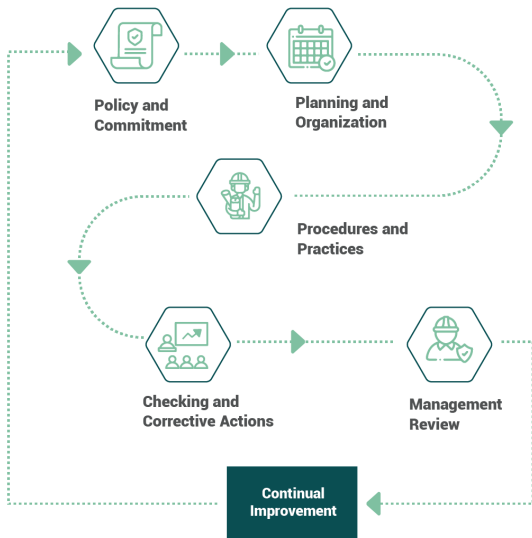

● QUALITY MANAGEMENT

Quality is important to our business because we value our customers. We aim to provide services for our clients that meet and even exceed their expectations. We are dedicated to continuous improvement and have set up a quality management system that offers a framework for our output to be evaluated and enhanced by regular gathering and monitoring from customer feedback, training and growth our employees, periodic audits of our internal processes, measuring quality goals that reflect our business objectives, reviewing audit results, customer reviews and complaints by the top management.

● SAFETY MANAGEMENT

HSE Management System (HSEMS) complies with Jordan's legislation and refers to the quality management process to incorporate into the HSE management approach. Utilizing this process allows the project to maintain a continual improvement cycle. These improvements are expected to be realized by the reduction of onsite risks in a systematic manner.

● POLICY

HSE Policy is signed by our Managing Director and committed by management throughout the implementation of the construction process to ensure a safe and healthful workplace for all our employees. With the mission of focusing on employee's occupational health and safety and commit to protecting the environment, Hussein Est. For Contracting officially announces our HSE policy as the following:

- 1 To comply with legal requirements and any other requirements that relevant to occupational health and safety as well as environmental aspects.
- 2 To ensure occupational health and safety for employees and prevent occupational diseases that affect employees' health in the working process.
- 3 To protect the environment and the safety of the local community.
- 4 To promote awareness, participation, and consultancy of employees for HSE issues.
- 5 To provide an adequate resource to ensure operational performances along with all requirements and to maintain and continually improve the HSE management system in accordance with the standards ISO 14001:2015 and ISO 45001:2018.

● OUR CLIENTS

● REFERENCES

01 Rehabilitation and extinction of the industrial terminal in the south port of aqaba

Client: technicas reunidas

Year: 2018

Total Project Value: 5 million JOD.

Construction period: 18 months

Scope of work: Installation and T&C of Electrical and Mechanical Systems

Project features: Belt conveyors, Structural works, Process equipment, Two Medium voltage substations, Low voltage switch gears, Field Instruments and sensors, Cable trays, Power and Control Cables, CCTV, Fire Fighting and Fire Detection Systems.

02 New sulphur bulk store in Jordan phosphate mines industrial complex

Client: PHB Weserhütte

Year: 2019

Total Project Value: 3 million JOD.

Scale: 7000sqm

Construction period: 15 months

Scope of work: build- full civil & MEP Package

Sector: chemicals

Project features: civil construction, steel fabrications, steel installation, cladding, cable management system, lighting, fire fighting

03 Aqaba new port -Grain berth

Client: Impresa di Costruzioni Ing.E Mantovani

Year: 2016

Total Project Value: 1.5 million JOD

Scale: 10000sqm

Construction period: 6 months

Scope of work: build- part civil & MEP Package

Sector: importing port

Project features: civil construction, steel fabrications, steel installation, lighting, firefighting, sheet piling, dewatering system

04 Aqaba new port -General cargo berth

Client: Impresa di Costruzioni Ing.E Mantovani

Year: 2017

Total Project Value: 2 million JOD

Scale: 11000sqm

Construction period: 8 months

Scope of work: build- part civil & MEP Package

Sector: importing port

Project features: civil construction, steel fabrications, steel installation, lighting, firefighting, sheet piling, dewatering system

05 New Weight-Bridges & Traffic Lane Extension – Jordan silos co. Aqaba

Client: Technological Industrial Group

Year: 2022

Total Project Value: 1 million JOD

Scale: 8000sqm

Construction period: 6 months

Scope of work: build- full civil & MEP Package

Sector: Grain storing

Project features: civil construction, steel fabrications, steel installation, lighting, firefighting, roads, weight bridge

06 Overhead power lines - Sheedyh - Ma'an governate

Year: 2014

Total Project Value: 2.5 million JOD

Client: Electricity distribution company

Scale: 80km

Construction period: 10 months

Scope of work: build- full civil & MEP Package

Sector: Electricity distribution

Project features: civil construction, steel fabrications, steel installation, lighting, firefighting, roads
